

SYMBIOTIC AI

THE MEMORY LAYER FOR HUMAN + AI COLLABORATION

DURABLE MEMORY

BEHAVIORAL ACCOUNTABILITY

ACTION ACROSS SESSIONS

AI is powerful, but still forgetful

- Starts from zero
- Context dies in chat history
- Advice stays generic
- The relationship resets

Note: This is what the two million know thing and maint formore in the works.

Context dies in chat history and advice The relationship reset

Durable context is the missing layer

Why Symbiotic AI wins

A better relationship, not just a better answer.

From assistant to symbiosis

Persistent. Specific. Collaborative.
